NOTES

GOLF TITLE IS BROUGHT HERE BY J. HINTGEN

Member Bismarck Country Club Wins State Championship

PLAYED AN UPHILL GAME

The North Dakota state golf championship comes to the Bismarck Country club this year.

Jack Hintgen, of Mandan, playing as a representative of the Bismarck Country club, won the final match for the championship Saturday afternoon at Dickinson, defeating William Kostelecky of Dickinson, 2 up and 1 to go in a 36 hole match. The match was one of the closest of the tournament. Hintgen was one down at the end of 18 holes and at one time was 4 down but he played steadily and won out.

The local golfers who returned praised the hospitality of the Dickinson people and the quality of the golf played at the tournament. Although the number of entries was not as large as in Bismarck last year the quality of golf displayed was much better.

Golfers were praising Hintgen for his especially game fight against Kostelecky who is one of the state's crack golfers and always a dangerous man. Kostelecky had made the lowest nine-hole score during the tournament. At the end of 18 holes Kostelecky had Hintgen one down. In the second 18-hole play Hintgen started out and took the first three holes then lost the next three to Kostelecky. The game saw-sawed until Hintgen, by steady playing won out. Hintgen has played golf on the Bismarck course for many years being a member of the Bismarck Country club while a resident of Bismarck and Mandan.

PRISON ROAD IS IMPROVED

The County Commissioners and Prison Officials Cooperate

The road to the penitentiary is being graveled by the county commissioners and the penitentiary officials who expect to make it one of the best roads in this section of the state. The work may be completed this week.

Under a plan evolved by E. G. Patterson, president of the county board and Warden L. L. Stair the penitentiary is turning gravel from its gravel pit eight prisoners to load gravel and five teams while the county is furnishing four trucks one extra man and a foreman. The city limits extend to the state property east of the city but authority is given under the state laws under which the county may work on a state highway. In the instance of this road, the expense to the county is negligible.

The gravel is spread over the entire width of the road from 4 to 6 inches deep.

PETITIONS FOR RECALL TO BE FILED IN SEPT.

Petitions for a recall election will be filed on or about September 19, according to advices to the Secretary of State from T. G. Nelson, secretary of the Independent Voters Association. In a letter Nelson said that he had in his office petitions bearing the names of more than thirty per cent of voters who cast ballots for Governor at the last election and he was advising the secretary of state officially of the initial step in preparations for the recall election.

As the law provides that a recall election must be called in not less than 40 nor more than 45 days after petitions are filed for the election, if the petitions were filed on Sept. 19, would not be earlier than Oct. 29 nor later than Nov. 2. The Devils Lake convention provided for a recall election on or before November 8.

CONFER ABOUT G. A. R. GROUNDS

Jamestown N. D. Aug. 15.—As the result of a meeting to consider the matter a committee of seven will be appointed by Dr. T. L. DePuy as chairman to confer with the county commissioners and the Chautauqua association as to the best disposition to be made of what are known as the G. A. R. grounds at Spiritwood lake. The property consists of about 28 acres, bearing a first mortgage of \$15,000 and a second mortgage of \$7,000.

The opinion has been expressed that Stutsman county should buy and own this ground and use it for park and picnic purposes.

MIDLAND INCREASES SERVICE

Jamestown N. D. Aug. 15.—Effective today the Midland Continental railroad was put into effect. It is except Sunday service on the line north of Jamestown to Wimbledon. The train leaving Jamestown at 6 A. M. makes the round trip to Wimbledon and return by 10 25 A. M. The schedule now in effect between Jamestown and Edgemoor continues as heretofore. "KING OF NEWSBOYS," ON WAY AROUND WORLD ON 5 CENTS, VISITS BISMARCK

King Cole, king of the American newsboys, who started around the world with 5 cents in his pocket visited Bismarck Saturday evening still on his trip.

The leather lugged newsboy is now on his way to Honolulu to attend the world newspaper congress. He expects to continue through the Orient after leaving Honolulu.

He began his journey when he was 15 years old, crossing the pond to England. He has visited every state in the union except Montana and Washington. Before America engaged in war he was in British transport service and when America declared war he joined the U. S. forces enlisting in the First Tennessee infantry. He was discharged at Dayton, Ohio three years ago. He was 25 years old then when he determined on his trip around the world.

He has just returned from England, France, Norway, Denmark and Sweden and in each country he made his way selling newspapers. He claims to have the loudest voice of any newsboy in America. Royalty appeared to be the special friends of King Cole. His scrapbooks show his picture with the Lord Mayor of London, princes and earls and lords. He met the Prince of Wales and was received at Buckingham Palace by Lord Stamfordham, the king's private secretary. He bears a letter from President Harding dated June 9, 1921, telling

PLAN TRAIL TO BLACK HILLS IN MEETING TODAY

Proposal Made to Create Winnipeg to Denver Highway, Passing Through Bismarck

The creation of the Black Hills trail, following the route taken in pioneer days in the Black Hills gold rush, is being urged. A meeting is being held in Mandan today to discuss the trail proposition.

The trail would follow the old stage road from Bismarck to the Black Hills of South Dakota, but also would be protected on the north to Winnipeg and south to Denver. Several Winnipeg men are boosting the proposition. The route would be from Winnipeg to Bismarck to Minot down to Bismarck and Mandan and on into South Dakota and to Colorado.

Some previous attempts have been made to mark the trail but they have not resulted in a satisfactory restoration of the old trail and it is now proposed to blaze the trail again, rechristen and register it with the Secretary of State, and improve it to stand modern automobile traffic.

Senator F. W. Mees, of Morton county, is chairman of the organization, which called the meeting today. William Holben, secretary of the North Dakota Good Roads Association, was elected temporary chairman of the meeting. One hundred representatives of various communities interested in the proposed road were present. Many Bottineau men were present. They proposed the start of the road be at Lake Wetigoshie, Bottineau county.

THIEVES STEAL CAR PARKED AT SIDE OF HOUSE

Automobile of William W. Schwartz is Stolen During the Night

The automobile of William W. Schwartz, 605 Avenue C was stolen last night. The machine, a Buick six cylinder touring car 1920 model was recently acquired by Mr. Schwartz. He had kept it in a neighboring garage but this was in use last night and he left it at the side of the house. The car was locked.

It is believed the thieves did not start the car at its parking place but pulled it to a place where they could break the lock without fear of being heard. Either the thieves used another car or there were enough to drag it away by hand is the opinion of Mrs. Schwartz.

Just when the car was taken is not known. Mrs. Schwartz heard noise toward morning but thought it was a neighbor getting his car out. It is

believed this was the time the Schwartz car was stolen.

The auto had been filled with gasoline. Mr. Schwartz who is with the Provident Life Insurance company preparing to make an early start on his trip today.

Police were notified.

and they wish to do their utmost to secure that every man of Irish birth should work in loyal cooperation with the free communities on which the British Empire is based. They are convinced that the Irish people may find as worthy and complete an expression of their political and spiritual ideals within the empire as any of the numerous and varied nations united in all allegiance to His Majesty's throne and they desire such consummation not only for the welfare of Great Britain and Ireland and the empire as a whole but also for the cause of peace and harmony throughout the world.

"There is not a part of the world where Irishmen have made their homes but suffers from our ancient feuds. No part of it but looks to this meeting between the British government and the Irish leaders to resolve these feuds in a new understanding honorable and satisfactory to all the people involved."

Empire of Many Races

"The Free nations which compose the British Empire are drawn from many races with different histories, traditions and ideals. In the Dominion of Canada the British and French have long forgotten the bitter conflicts which divided their ancestors. In South Africa the Transvaal republic and the Orange Free State have joined with two British Colonies to make a great self-governing union under His Majesty's sway. The British people cannot believe that where Canada and South Africa have so equal or even greater difficulties have so signally succeeded Ireland will fail and they are determined that so far as they themselves can assure it nothing shall hinder Irish statesmen from joining together to build up an Irish state in free cooperation with the other peoples of the Empire."

"Moved by these considerations the British government invite Ireland to take her place in the great association of free nations over which His Majesty reigns as an earnest of their desire to obliterate old quarrels, and to enable Ireland to face the future with her own strength and hope, they propose that Ireland shall assume forthwith the status of a Dominion with all the powers and privileges set forth in this document."

"By the adoption of Dominion status it is understood that Ireland shall enjoy complete autonomy in taxation and finance, that she shall maintain her own military forces for home defense, her own constabulary and her own police, that she shall take over the Irish postal services and all matters relating thereto, education, land,

agriculture, mines and minerals, for every housing, labor, unemployment, transportation, trade, public health, health insurance and liquor traffic, and in sum, that she shall exercise all those powers and privileges upon which the autonomy of a self-governing Dominion is based, subject to the considerations set forth in the ensuing paragraphs.

Guaranteed in these liberties which no foreign people can challenge with out challenging the Empire as a whole, the Dominion hold each at least severally by virtue of their British fellowship, a standing amongst the nations equivalent not merely to their individual strength, but to the combined powers and influences of all the nations of the Commonwealth.

Six Stipulations

Then follow six stipulations. The first says that the common concern of both countries in the defense of their interests on land and sea shall be recognized.

"Great Britain" it adds lives by the sea, her food and her communications depend on the freedom of the great sea routes. Ireland lies at Britain's side across the seaways north and south that link her with the sister nations of the Empire, the markets of the world and the vital sources of her food supply.

"In recognition of this fact which nature has imposed and which no statesmanship can change it is essential that the royal navy alone should control the seas around Ireland and Great Britain and that such rights and liberties should be accorded it by the Irish state as are essential for naval purposes in Irish harbors and on Irish coasts."

The second stipulation says

"In order that the movement toward limitation of armament which is now making progress in the world should NOT be hampered in any way. The Irish territorial force shall within reasonable limits conform in numbers to the military establishments in other parts of the Islands."

In the third stipulation it is declared that Great Britain shall have all the necessary facilities for the development of air defense and communications.

Hopes For Empire Aid

The fourth expresses the hope that Ireland will of her own free will contribute in proportion to her wealth to the naval and military forces of the Empire and assumes that voluntary recruiting will be permitted particularly for those famous Irish regiments which so long and so gallantly have served his majesty in all parts of the world.

Complete autonomy in finance and taxation with the agreement that there shall be no tariffs and other trade restrictions between the two Islands is provided in the fifth stipulation.

The sixth declares that Ireland is to assume responsibility for a share of the United Kingdom's present debt and pensions. In default of an agreement the share would be determined by an arbitrator appointed from within the Dominion.

The document proposes that the conditions of settlement be embodied in the form of a treaty to which effect shall be given by the British and Irish parliaments.

"The form in which the settlement is to take effect" it adds "will depend upon Ireland herself. It must allow for full recognition of the existing powers and privileges of the parliament and government of Northern Ireland."

Would Unite All

The British government entertains the earnest hope that the necessity of harmonious cooperation among Irishmen of all classes and creeds will be recognized throughout Ireland and will welcome the day when by these means Unity is achieved. But no such common action can be secured by force.

ULSTER'S REPLY

Belfast Aug. 15.—(By the Associated Press.)—The text of the Ulster cabinet's observation on the British government's proposal for peace in Ireland signed by Sir James Craig the Ulster Premier was made public here tonight. The statement says that the acceptance by the Ulster leaders of the original invitation of the British government to meet in conference with it in London still holds good and that they will be available at any time their assistance is again desired.

FREIGHT RATES HURT BUSINESS IN SOUTHWEST
Washington, Aug. 15.—Business and financial interests in the states served by the tenth federal reserve district are reparable due to high cost of production and distribution of agricultural products and low prices. A. E. Ramsey, chairman of the federal reserve bank at Kansas City, told the Interstate Commerce Commission in hearing of freight rates on grain products and hay.

The complaint against the present rates was made by the Kansas state railroad commission, joined in by 20 other states, and various grain producers' associations.

Producers are unable to sell their products above the cost of production and distribution Mr. Ramsey said. Interest burdens of farmers in the territory have increased approximately 11 per cent, the witness said.
